

Fatra Preformed Pipe Details

Fatra preformed details are made from FF804 unreinforced membrane and can provide a cost effective way of completing pipe details on Fatra roofs. They should be heat welded to the Fatra membrane and the upstand finished with a stainless steel clip and Fatra FF857 silicone.

Dimensions: See table below

Attachment: Heat Welded to membrane

Colour: Dark Grey (RAL 7012,RAL7016)

Image	Type	Fatra Code	Dimensions	Height
	Open Round Collar	FF830	100mm diameter	200mm
		FF831	150mm diameter	200mm
		FF832	200mm diameter	200mm
	Open Square Collar	FF833	80mm x 80mm	200mm
		FF834	100mm x 100mm	200mm
		FF835	150mm x 150mm	200mm
